2022 Community Grant recipients, Ellendale, QLD

ELLENDALE COMMUNITY GRANTS

We believe in creating strong foundations for life, enriching people's lives, creating connections, and fostering community spirit for the benefit of all our residents at Ellendale.

We're focused on the people who call our community home, and helping them flourish for an even better tomorrow.

That's why Cedar Woods provides Ellendale Community Grants – a programme that doesn't just recognise and appreciate those organisations and initiatives that contribute to our community – we actively support them and provide funding that can help them continue their efforts and make an even bigger impact.

You're invited to apply.

We welcome applications from all groups, organisations and initiatives that benefit our communities or that provide enjoyment and foster connections between our residents, including:

- not-for-profits
- sports clubs
- community groups
- local educational institutions
- resident associations which require funding to run their own events
- initiatives that promote the businesses that serve our community.

Financial support wherever you need it.

We understand that developing a vibrant community and building lasting connections can take a range of forms – cultural experiences, sports gear, welfare, educational facilities, environmental efforts and simple, fun, recreational events – that's why Cedar Woods encourages applications from diverse organisations, not-for-profits and initiatives so that our Community Grants can help with essential funding that helps provide a valuable service to our community.

We aim to support you wherever you need it most.

We believe in building our communities, together. And this is your opportunity to apply for a Ellendale Community Grant.

How to apply.

To find out more or apply for a Ellendale Community Grant, simply email **ellendale@cedarwoods.com.au**
